- kagome1232345@gmail.com
- github.com/AnhLove
- Chuong My, Ha Noi

### **Skills**

Basic Technical Skills

Programming Languages: Java, JavaScript (basic)

Web Technologies: HTML, CSS Databases: MySQL, MongoDB

Tools & Frameworks: Git, Spring Boot, ExpressJS

Soft Skills: Teamwork, Problem-solving Basic English communication skills

#### **Interests**

Reading novels, watching movies

### **Objective**

I am a third-year student who loves technology and software development. I want to use my programming skills and work well with others to help create useful applications. I hope to learn more and improve myself in the IT field and help the company and projects succeed.

## Work experience

**School Project** 

May 2025 - June 2025

Project Name: E-commerce Website Technologies: Java, MySQL, Spring GitHub Link: [Anh thêm link vào đây]

**Description:** 

I was responsible for managing the admin functions. The team had 5 members and was formed in May 2025. Our goal was to create a platform where users can buy, order, and sell products. Thanks to the efforts of all members, 100% of the team successfully passed the project defense.

### **Education**

IT - Software

September 202 - December 202

Engineering

**Bac Ha International University**
